SPRING-FLOWERING BULBS

for Planting this Fall

Enjoy the beauty of Daffodils, Tulips, Iris and the many other spring flowers, grown from bulbs, which we offer in this list. Make your selection now, and plant them this fall. You will be delighted with their charm and beauty.

This year, again, there will be no bulbs available from Holland or France because of the war. To provide the finest quality bulbs, we have secured the cream of the American and British supply, all priced as reasonably as possible. Many are in short supply so we suggest you order early.

ALEXANDER FORBES & CO., Seedsmen

Located on Route 10, Hanover, N. J., about one mile west of the Livingston Traffic Circle.

BULBS FOR GROWING INDOORS

Beside the forcing Tulips, Crocus, and Daffodils try these easily grown bulbs.

AMARYLLIS, GIANT HYBRIDS. In white, red and pink variations. Large bulbs, 50 cts. each; \$5.50 per doz. Monster bulbs, 95 cts. each.

CALLA LILIES. Plant singly in 6-inch pots with bulb-top just above soil. In room temperature will bloom in 6 to 8 weeks. **White**, 60 cts. each; \$6 per doz. **Yellow**, 50 cts. each; \$5 per doz.

PAPER-WHITE NARCISSUS. These fragrant flowers bloom in succession from Christmas until Easter. Plunge bulbs close together in pebbles in bowls, water and keep in cool, dark place for two weeks. Bring to light as needed. 60 cts. per doz.; \$4.50 per 100.

Narcissus—Daffodils

APRIL-MAY FLOWERING

After the dormant winter garden months, there is nothing which brings a fuller realization of spring than the cheerfulness of a border of these flowers. In the early morning or with the lengthening shadows of late afternoon their beauty is unsurpassed.

The asterisk (*) indicates those best for forcing indoors. Following the variety name, the letter indicates the relative earliness of bloom and the number shows the height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price			Amount

	*Golden Sceptre. B 14. Large golden yellow, single, cupped flowers. Very fragrant	1.00	7.25	67		

Single Early Tulips

APRIL-MAY FLOWERING

In recent years attention has been drawn so strongly to Darwin and other May-flowering Tulips that there has been a definite lack of interest in this colorful early-flowering class. A comparatively short stem-length is more than offset by the brilliant display which Single Early Tulips bring to your borders in the last of April and early May. Many may be grown indoors to bloom in January, and all will flower in pots in late February or early March.

In the following list the asterisk (*) which precedes the variety name indicates those best for forcing indoors. Following the variety name, the letter indicates the relative earliness of bloom and the number shows the usual height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price		Amount	
	Couleur Cardinal. C 12. A large fine flower of brilliant crimson-scarlet with deeper flush, on strong stems.	Doz.	100		
		\$1.20	\$9.00		
	*Fred Moore. B 12. Deep ruddy apricot edged dull orange-yellow. Sweet scented. Very popular variety.	1.20	9.00		
	*General DeWet. B 16. Large sweet-scented flower of golden yellow flushed and stippled deep orange. Distinct.	1.30	9.90		
	*Keizerskroon. A 16. Brilliant crimson-scarlet with broad margin of clear rich yellow. Showy.	1.20	9.00		
	*Prince of Austria. B 14. A large showy flower of fiery orange-red. Sweet scented.	1.20	9.00		
	Queen Flora. B 12. A large, well-formed flower of deep rosy pink on a long stem.	1.30	9.90		
	Rising Sun. B 15. A huge oval flower of very deep golden yellow. The finest yellow.	1.20	9.00		
	*Vermilion Brilliant. A 12. Very large, perfectly formed flowers of bright glistening scarlet.	1.20	9.00		
	White Hawk. A 12. Nicely formed clean flower of the purest white. Attractive	1.30	9.90		
	Mixed Single Early Tulips. A very attractive array of colors selected for height and season of bloom.	1.10	8.10		

Triumph Tulips

APRIL-MAY FLOWERING

This is a new class of Tulips resulting from crosses between Single Early Tulips and the May-flowering sorts. They bloom after the Single Early Tulips are over and before the Cottage, Darwin and Breeder Tulips are ready. They bring many new colors to the Tulip garden.

Following the variety name, the letter indicates the relative earliness of bloom and the number shows the usual height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price		Amount

Giant Darwin Tulips

MAY FLOWERING

For garden plantings Darwins are unequalled. They embrace a color range which is practically unlimited. Their stately beauty may be enjoyed in large beds or planted in groups in perennial borders, among shrubs or against backgrounds. Our list includes the popular well-known varieties as well as many of the newer, more recently developed kinds. Among these a number are designated (Ideal). These in reality are merely improved Darwins but are being offered by some as a new race, variously called "Ideal," or "Super Giant," or "Improved" Darwin Tulips.

Following the variety name, the letter indicates the relative earliness of bloom and the number shows the usual height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price		Amount	
	Afterglow. D 26. Soft apricot-orange tinged pink edged light orange. Fine with myosotis.....	Doz.	100

95 cts. per doz.; \$3.75 for 50; \$7.25 per 100; \$68 per 1000

Cottage and Hybrid Tulips

MAY FLOWERING

These differ from Darwin Tulips chiefly in the shape of the flowers, which in many varieties are long and oval with gracefully reflexed petals. All colors imaginable—in fact, some of the most beautiful Tulips we have—are to be found in this class. They are particularly useful for cut-flowers.

Following the variety name, the letter indicates the relative earliness of bloom and the number shows the usual height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price		Amount	
	Albino. B 26. An attractive pure white large flower. Especially fine for forcing.	Doz.	100

	Mixed Cottage Tulips. These comprise a great variety of color in many varied forms.95	7.25		

Majestic Breeder Tulips

MAY FLOWERING

Truly the aristocrats of Tulips, the Breeders, generally of rich subdued colors, are unrivaled for their elegance and stateliness. They are invaluable as contrasts with the brighter Darwin and Cottage Tulips. In form they closely resemble the Darwin Tulips.

Following the variety name, the letter indicates the relative earliness of bloom and the number shows the usual height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price	Amount
.....	Apricot. C 26. A rich combination of apricot with bronze edges and tan shadings.	Doz. 100 <i>Not available</i>

Parrot Tulips

MAY FLOWERING

These are large flowered and very showy, but require support as the stems are not strong enough to hold up the fully developed flower-heads. They are delightful for cut-flower use because of their artistic form and odd coloring. The petal edges are lacinated or slashed, and peculiarly marked.

The figure following the variety name shows the height in inches.

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price	Amount
.....	Admiral de Constantinople. 15. Very brilliant, with bright scarlet flowers shaded orange.	Doz. 100 <i>Not available</i>

.....	Lady Derby. 16. Similar to Fantasy but light lavender with slightly paler edges.	<i>Not available</i>
.....	Markgraf von Baden. 15. A feathered combination of scarlet and yellow marked green.	<i>Not available</i>

Tall Bearded Iris

LATE MAY-JUNE FLOWERING

There is no class of flowers in which such great improvements have been made. Astounding new colors and combinations have been created until now the Iris is truly the "Queen of the Garden." They are hardy in any latitude and thrive in any garden soil.

Following the variety name, the letter indicates the relative earliness of bloom and the number shows the height in inches. "S" denotes the standards or upright petals, "F" the falls or lower petals.

Quantity Ordered	Planting directions will be included when shipment of the plants ordered is made this fall	Price	Amount

	His Excellency. Large bright red, semi-double flowers with black center like a red poppy	1.00	7.50		
.....				
	The Bride. A very superior pure white variety with large single well-formed flowers.	1.00	7.50		
.....				
	Brodiaeas				
	Grass-like tufts and slender stems with waxy flower-heads in May and June. Plant 3 inches deep.				
	Capitata. One of the earliest with compact clusters of violet-blue flowers, 6 to 10 inches high	.70	5.00		
.....				
	Ixioides. A fine attractive yellow called Golden Star, growing 6 to 8 inches high	.70	5.00		
.....				
	Mixed. A very nice mixture including violet, purple, scarlet and yellow	.65	4.50		
.....				
	Camassia				
	Hardy. Flower spikes of star-shaped florets often 2 inches across, in June. Plant bulbs 4 inches deep. Water freely.				
	Esculenta. Blue-purple flowers, gracefully erect, 2 feet high. Will thrive anywhere	.60	4.00		
.....				
	Leichtlini. Tall flower-spikes growing 3 feet high. In either Deep Blue or White, Each	\$0.15	1.30	10.00	
.....				
	Crocus				
	Planted in borders, massed under trees, in patches in the lawn, these appear in March or early April each year.				
	Separate Colors. Blue-Lavender, Striped, or White.				
.....	Well-formed flowers of good size. Each	.95	7.00		
	Yellow Mammoth. The well-known popular variety so attractive in a sunny garden	1.00	7.50		
.....				
	Mixed, Giant-flowering Crocus. A splendid assortment for naturalizing	.90	6.50		
.....				
	Eremurus				
	Thrives in a well-drained, sheltered sunny position in deep sandy loam, well manured. Protect with 5 inches of leaves in winter. Long, tapered, closely set spikes.				
	Bungei. Excellent deep yellow flower spikes in July often 6 feet high. A strong grower	1.25	14.00		
.....				
	Elwesi. Beautiful soft pink closely set flower spikes in June often growing over 8 feet high	2.25	25.00		
.....				
	Himalaicus. Long tapered spikes of waxy white flowers with golden anthers	1.50	17.00		
.....				

Other Spring-flowering Bulbs

FOR PLANTING OUTDOORS IN THE FALL

Quantity Ordered	Planting directions will be included when shipment of the bulbs ordered is made this fall	Price	Amount
	Dielytra	Each Doz. 100	
	Bleeding Heart, the old-fashioned favorite, still popular. Spectabilis. Long racemes of heart-shaped pink flowers . .	\$0.45 \$4.50	
	Galanthus		
	Snowdrops, the first flowers of spring, thrive anywhere but prefer cool moist soil. Superb under trees. Elwesi. Beautiful snow-white bells on short stems soon after melting snow. Last for years if undisturbed.95 \$7.00	
	Leucojum		
	Splendid for naturalizing, the Spring Snowflake blooms in late April and prefers rich soil. Hardy. Æstivum. Beautiful, large white bells tipped with green often growing 8 inches high.85 6.00	
	Lilies		
	These hardy flowers, with their beauty and fragrance, like partial shade and look well against shrubbery. Candidum (Madonna Lily). Snow-white flowers, 3 to 20 on each stem, in June. Ht. 4½ ft. Plant 3 in. deep.50 5.00	
	Regale. White, shaded pale yellow in center, with pink edges in July. Ht. 3 to 4 ft. Plant 8 in. deep.35 3.50	
	Tenuifolium. Clusters of nodding scarlet flowers on 18-inch plants, in June. Plant 4 inches deep.25 2.50	
	Lily-of-the-Valley		
	These are clumps for outdoor planting only. They are perfectly hardy and will readily naturalize.45 5.00	
	Muscari		
	The Grape Hyacinths bloom in mid-April and thrive as a ground carpet under trees, or in a sunny rock-garden. Early Giant. Deep blue, 5-inch spikes thickly set with small bell-like flowers. Fine for massing.60 4.50	
	Peonies		
	Very easily grown and long lasting. Bloom in June. Two-year-old clumps with 3 to 5 eyes. Double Pink, Double Red and Double White, Each.35 3.50	
	Scilla Campanulata		
	The Wood Hyacinth, in late May, is fine for borders and under evergreens. Plant 5 inches deep in shade. Blue, Rose, or White. Spikes of bell-flowers on stems 12 to 15 inches high. Each.85 6.00	
	Sparaxis		
	These South African spectacular flowers bloom in April. Plant bulbs 3 inches deep and mulch heavily for winter. Mixed. Graceful spikes of flowers in purple, yellow, brown and white with strange markings. Ht. 14 inches.60 4.50	

Forbes Lawn Seed for Every Need

The best lawn is produced from a seed mixture of several grasses, each in the proper proportion to serve its purpose. We blend the mixtures offered below from heavy, re-cleaned live seeds in the proportions which years of experience have proved to be best for this locality.

For quick results sow 1 pound per 100 square feet. Half that amount gives good results but takes longer. Planting directions with every bag.

Branch Brook Park Lawn Mixture

A low-priced standard mixture giving a lawn of good color and withstanding normal wear. Includes White Clover. Lb. 45 cts.; 2 lbs. 85 cts.; 5 lbs. \$2; 10 lbs. \$3.75; 25 lbs. \$9; 100 lbs. \$35.

The "Forbes" Lawn Mixture

Made up of five dwarf perennial grasses, giving a lawn of rich green, fine texture and a permanency not usually found. Lb. 50 cts.; 2 lbs. 95 cts.; 5 lbs. \$2.30; 10 lbs. \$4.50; 25 lbs. \$11; 100 lbs. \$43.

Elite Lawn Mixture

This is a superior blend producing an ideal verdant close turf of very fine-leaved texture, more nearly resembling the fineness of a putting-green. Does not require the constant attention usual with putting-greens. Lb. 75 cts.; 2 lbs. \$1.45; 5 lbs. \$3.50; 10 lbs. \$6.50; 25 lbs. \$15.75; 100 lbs. \$60.

Super-Bent Lawn Mixture

Contains Bent Grass varieties only. On rich soils with careful seeding, rolling and watering produces the ideal, deep carpet-like, fine green turf of putting-greens. Lb. 85 cts.; 2 lbs. \$1.60; 5 lbs. \$3.85; 10 lbs. \$7.50; 25 lbs. \$18; 100 lbs. \$70. Sow one pound to 200 square feet.

Shady Place Lawn Mixture

Thrives better than any other in partially shaded areas, as it includes grasses which grow naturally in the shade. Frequent watering and feeding is essential to supply both tree roots and grass roots. Lb. 65 cts.; 2 lbs. \$1.25; 5 lbs. \$3; 10 lbs. \$5.75; 25 lbs. \$14; 100 lbs. \$55.

Terrace Lawn Mixture

This forms a densely matted network of deep roots, withstanding the wash from heavy rains on slopes. The longer roots also command the deeper moisture level when the terraces become dry in summer. Lb. 65 cts.; 2 lbs. \$1.25; 5 lbs. \$3; 10 lbs. \$5.75; 25 lbs. \$14; 100 lbs. \$55.

White Clover

This dwarf, compact, dark green variety is suggested for use where it has been found difficult to produce a turf with lawn seed mixtures only. $\frac{1}{4}$ lb. 35 cts.; $\frac{1}{2}$ lb. 65 cts.; lb. \$1.20.

Special New Jersey Lawn Mixtures

These are prepared from formulæ supplied by the N. J. Agricultural Experiment Station.

Mixture No. 1A (Contains no White Clover).

For fair to good soils. Lb. 50 cts.; 5 lbs. \$2.30; 10 lbs. \$4.50; 25 lbs. \$11; 100 lbs. \$43.

Mixture No. 2. For a turf of finest quality on good rich soils. Lb. 70 cts.; 5 lbs. \$3.25; 10 lbs. \$6.25; 25 lbs. \$15.25; 100 lbs. \$60.

Mixture No. 3. For shade. Lb. 85 cts.; 5 lbs. \$3.85; 10 lbs. \$7.50; 25 lbs. \$18; 100 lbs. \$70.

Mixture No. 4. Especially recommended for poor soils of clay, shale or sandy character. Lb. 60 cts.; 5 lbs. \$2.80; 10 lbs. \$5.40; 25 lbs. \$13; 100 lbs. \$50.

Individual Lawn Grass Varieties

The seeds we offer are true unblended new crop, re-cleaned to the highest purity and germination.

Bent, Colonial or Rhode Island (*Agrostis tenuis*). Makes the very finest-textured grass. Lasts well under close mowing and thrives on acid soils. Lb. \$1.20; 10 lbs. \$11; 100 lbs. \$100.

Bent, Netherlands Mixed (*Agrostis* species). Makes thick, velvety, very fine-leaved turf. Used very extensively for golf putting-greens. Lb. \$1.75; 10 lbs. \$16.50; 100 lbs. \$150.

Canada Blue Grass (*Poa compressa*). A suitable grass for hard, dry soils. Excellent for rooting on steep places. Lb. 60 cts.; 10 lbs. \$5.50; 100 lbs. \$45.

Chewing's New Zealand Fescue (*Festuca rubra fallax*). Needle-like bristly leaves forming tough, mat-like turf. Thrives in shade. Lb. 75 cts.; 10 lbs. \$7; 100 lbs. \$60.

Domestic Ryegrass. A broad-bladed annual variety used as a nurse grass in lawns. Lb. 30 cts.; 10 lbs. \$2.50; 100 lbs. \$15.

English Ryegrass (*Lolium perenne*). Forms compact turf which stays bright green through the season. Is a rapid grower. Lb. 35 cts.; 10 lbs. \$3; 100 lbs. \$25.

Italian Ryegrass (*Lolium italicum*). A rapid grower which thrives on any good soil. Responds to rich food and moisture. Lb. 35 cts.; 10 lbs. \$3; 100 lbs. \$25.

Kentucky Blue Grass, Superfine (*Poa pratensis*). One of the first grasses to show green in early spring. Fine-bladed and excellent for lawns. Lb. 55 cts.; 10 lbs. \$5; 100 lbs. \$40.

Meadow Fescue (*Festuca pratensis*). An annual grass remaining good over a long season. Succeeds in all soils, but best on moist land. Lb. 45 cts.; 10 lbs. \$4; 100 lbs. \$30.

Orchard Grass (*Dactylis glomerata*). Valuable for earliness and rapid growth. Succeeds in any soil; best in moist shady places. Sow evenly as it tufts. Lb. 55 cts.; 10 lbs. \$5; 100 lbs. \$40.

Redtop Fancy, Superfine (*Agrostis palustris*). A nice fine-leaved variety especially suited for lawn purposes. Does best in moist, rich soil. Lb. 45 cts.; 10 lbs. \$4; 100 lbs. \$30.

Rough-stalked Meadow (*Poa trivialis*). Narrow flat dark green leaf-blades, with spreading, thickly matted roots. Thrives in shade. Lb. \$1; 10 lbs. \$9.50; 100 lbs. \$85.

We supply 25 bulbs of a variety at the 100 rate and 250 bulbs of a variety at the 1000 rate

[illegible]

We deliver FREE, by our own trucks, within the suburban area of Newark, N. J. (*viz.* all of Essex and Union counties; Clifton, Little Falls, Passaic and Paterson in Passaic County; and Chatham, Florham Park, Hanover, Madison and Morristown in Morris County) *all* merchandise offered.

We ship, transportation FREE within 100 miles of Newark, N. J. (and outside the above suburban area), all merchandise offered herein, but at our option by Parcel Post or Express to your address or nearest Post or Express Office, or by Freight to your nearest Station.

We ship, transportation FREE to any point in the United States, at the prices in this list, all Lawn Grass Seed Mixtures.

ORDER SHEET (See other side)

[illegible]

Forbes Fertilizers and Soil Builders

FOR FREE DELIVERY SEE ORDER SHEET

A good garden requires good soil, but even with perfect soil, plant-food must be added each year to replace that which is consumed by the plants.

Acid Super-Phosphate. (16 per cent available Phosphoric Acid.) Apply 20 lbs. per 1000 sq. ft. as a top-dressing for lawns, and water thoroughly. Avoid use in hot weather. 100 lbs. \$1.60; 500 lbs. \$6.75; ton \$22.50.

Adco. For making artificial manure by stacking straw, leaves, etc., layer by layer, mixing it with Adco, and keeping it wet until well rotted. A 25-lb. bag with 12 barrow loads of garden waste, makes $\frac{1}{2}$ ton of manure. $7\frac{1}{2}$ lbs. 95 cts.; 25-lb. bag \$2.25; 150-lb. bag \$10.50.

Aluminum Sulphate. To acidify the soil for rhododendrons and other sour-soil plants. Sprinkle several times a year. 5 lbs. 40 cts.; 10 lbs. 65 cts.; 25 lbs. \$1.25; 100 lbs. \$4.

Bone-Meal. Because of its slow disintegrating and long-lasting qualities, this is desirable for roses, flowering shrubs, fruit bushes, and trees. A liberal application mixed into the soil before planting bulbs of tulips, hyacinths, etc., will result in remarkable size and brilliancy of flowers. For lawns broadcast as a top-dressing either in early spring or during the growing season. For this use 25 lbs. for every 1000 sq. ft. For making new lawns, use 50 lbs. for every 1000 sq. ft. 5 lbs. 35 cts.; 10 lbs. 55 cts.; 25 lbs. \$1.25; 50 lbs. \$2; 100 lbs. \$3.75; 500 lbs. \$17.50; ton \$60.

Bovung. A dehydrated, pulverized cow-manure product free from weed seeds. Clean, odorless, easily applied. Apply 50 lbs. to 200 sq. ft. of new lawn, half that for old lawns. 50 lbs. \$1.50; 100 lbs. \$2.75; 500 lbs. \$13.50.

Cow-Manure. In dry pulverized form and easy to handle. This is an ideal soil-builder and mulch, particularly for perennial beds. It is fine for lawn and garden. When used for top-dressing it works down into the soil leaving no waste. 50 lbs. \$1.75; 100 lbs. \$3; 500 lbs. \$14; ton \$52.

Driconure. This is the improved product, containing about $\frac{3}{4}$ cow and poultry manures in dehydrated form, and $\frac{1}{4}$ peat moss, finely ground and easy to apply. This complete all-organic fertilizer and soil-conditioner prevents burning as it holds the plant-food and moisture until used up by the plant roots. Driconure is ideal for top-dressing lawn or garden. 50 lbs. \$1.75; 100 lbs. \$3.25; 500 lbs. \$16; 1000 lbs. \$31; ton \$60.

Fertilizer Distributor. A handy device for small lawns; spreads fertilizer, grass seed, soil, etc. Has revolving agitator, adjustment and shut-off device. 16 in., \$3.15; 20 in., \$6.25.

Hyper-Humus. This ideal soil-builder for lawn or garden is a pure organic material similar to leaf-mold but of finer texture and is non-acid. Humus gives to soil that porous, crumbly condition essential to plant-growth; renders clay soils lighter; binds together sandy soils; and increases the moisture-retaining quality of all soils. It is odorless, dry, and easily handled, and absolutely free from weed seeds. On new lawns, apply 100 lbs. per 60 sq. ft. In top-dressing old lawns, use 100 lbs. per 100 sq. ft. In bags, 50 lbs. \$1; 100 lbs. \$1.60; 500 lbs. \$6.40; 1000 lbs. \$12; ton \$20. Special price on bulk delivered.

Lime, Hydrated Agricultural. Corrects acid soil, binds loose soils and opens heavy land. It is very quick-acting but will not burn if scattered evenly when lawn is dormant. As an early spring or late fall dressing, broadcast 50 lbs. per 1000 sq. ft. 10 lbs. 35 cts.; 50 lbs. 65 cts.; 100 lbs. \$1.25; 500 lbs. \$6; ton \$21.

Nitrate of Soda. A quick plant-stimulant for leaf vegetables. Use it with great care; not more than 1 lb. to 100 sq. ft., raked in. For lawns, use 5 lbs. per 1000 sq. ft., but first mix with four times its bulk of fine soil or sand. As a liquid use 1 oz. in 1 gal. of water. 5 lbs. 45 cts.; 10 lbs. 75 cts.; 25 lbs. \$1.35.

Peat Moss, Granulated. Mixed liberally into the soil, it prevents crusting, improves aeration, adds humus, lightens and makes the soil more friable, acts as a reservoir for soil-moisture and concentrated plant-fertilizers, and assures maximum root-development. Mixing liberally into soil at time of planting, assures more luxuriant growth during the season. For mulching, use both for summer moisture-retention and winter-protection, about roses, evergreens, perennial beds, shrubbery.

Trial size \$1, covers 30 sq. ft. 1 inch deep.
Large bale \$4.50, covers 300 sq. ft. 1 inch.

Sheep-Manure. Superior to Sheep and Goat Manure. It is assimilated rapidly by all forms of plant-life. Broadcast 100 lbs. per 1000 sq. ft. over an old lawn or rake thoroughly into the top-soil a day or two before seeding a new one. For liquid manure, use one pound to five gallons of water. 5 lbs. 35 cts.; 10 lbs. 55 cts.; 25 lbs. \$1; 50 lbs. \$1.75; 100 lbs. \$3; 500 lbs. \$14; ton \$52.

Sulphate of Ammonia. Fast plant-stimulant tending to make soil acid. When top-dressing lawns apply 1 lb. to every 150 sq. ft., but first mix with several times its bulk of soil or sand. Dissolve 1 oz. in a gal. of water and apply to the roots, avoiding the plants. 5 lbs. 40 cts.; 10 lbs. 70 cts.; 25 lbs. \$1.35; 100 lbs. \$3.75.

Forbes Super Lawn and Garden. Analysis 5 - 10 - 5.

This is the best for lawns, vegetables, flowers, fruit, or for general garden use. It is a well-balanced, complete fertilizer containing all the food elements needed for quick growth, early maturity, and perfect development. Top-dress your lawn twice each year, once before the new spring growth commences and again in the fall before active growth stops. On a new lawn, broadcast 25 lbs. for every 500 sq. ft. For top-dressing, apply evenly 25 lbs. for every 1000 sq. ft. In hot weather, use half this quantity and water thoroughly. For gardens, use 5 lbs. to 100-ft. row and repeat this each month. 5 lbs. 35 cts.; 10 lbs. 55 cts.; 25 lbs. \$1; 50 lbs. \$1.75; 100 lbs. \$3; 500 lbs. \$14; ton \$52.

Vigoro. Top-dress 40 lbs. per 1000 sq. ft. of lawn. 5 lbs. 45 cts.; 10 lbs. 85 cts.; 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4; 500 lbs. \$19.

Wood Ashes. These contain potash and lime. For top-dressing lawns, destroying insects and weeds, particularly moss; use 100 lbs. to 1500 sq. ft. 25 lbs. 90 cts.; 50 lbs. \$1.35; 100-lb. bag \$2.50; bbl. (about 200 lbs.) \$4.50; ton \$40.
